Discussion: Consider: What is it? What is your interpretation rationale? How does this context relate to surrounding contexts? Have there been post-depositional processes? Are there special characteristics of this context? How was this context formed? What do you think is the origin of this context?

This may be a path hole - more likely an animal hole.  
There are 3 holes in the NW corner of the trench that do form a pattern, however the rest do not

note: projection issues with elevation to be rectified later
