Discussion: Consider: What is it? What is your interpretation rationale? How does this context relate to surrounding contexts? Have there been post-depositional processes? Are there special characteristics of this context? How was this context formed? What do you think is the origin of this context?

A lens of discrete burned bones upon the stones (614) -
We could suspect a deposit in relation to some commemorative action but the preservation was bad because found on the surface of the structure.
