Discussion: Consider: What is it? What is your interpretation rationale? How does this context relate to surrounding contexts? Have there been post-depositional processes? Are there special characteristics of this context? How was this context formed? What do you think is the origin of this context?
• Small amount of bones found on a stone near the middle of the grave.
Observation have to be done to determine if animal or human bones mixed.
It is possible that these bones belong to 623 and have been moved by animal.
All the soil has been sampled for water sieving/flotation.
